- D. Introduce services, illustrate cost of downtime, compare cost of service to cost of downtime, reinforce credibility, and relate value to customer objectives

Answer: C

5. Can you improve your margin by including services at the point of product sales?

- A. Yes. if you offer the right service.
- B. No, if the customer does not ask for services, you must sell them at cost, so no margin is left and the order margin percentage decreases.
- C. No, because offering services together with the product means that you are not selling a qualitative product and there is a risk of losing the total sale
- D. Yes. the increased order value (extra 15% to 30%) has a positive impact on the total margin,

and a typical service margin is even higher than the product margin

Answer: D
